

Managing Pesticides in Fresh Produce

4th July 2019 – Peterborough, Cambs

Managing Pesticides in Fresh Produce training is aimed at Technical Managers who have regular contact with retailers in the UK. The course will be highly participative and will use practical examples to enable learning to be easily applied to real business situations.

Learning Outcomes

- Know the different types of pesticides, how they work and methods of application
- Understand EU pesticide legislation and how its implementation affects us now and what is expected in the future
- Ability to take representative samples for residue testing and interpret results
- Evaluate laboratories to select the most appropriate and understand how the analysis is conducted
- Analyse data to develop a residue testing plan and risk- assess suppliers

Course tutor:

Ian Finlayson– experienced technologist & PRiF member

BASIS Points awarded for attending the day – 12
